Education

B.Tech — Artificial Intelligence and Data Science *2023 – 2027*

Sri Shakthi Institute of Engineering and Technology, Coimbatore | CGPA: 8.3 / 10

HSC (Class XII) — 84% — SB Matriculation Higher Secondary School, Musiri, Trichy, TN *2021 – 2023*

Design Skills

Design Tools: Figma, FigJam

UX Research: User Interviews, Surveys, User Personas, Competitive Analysis

Information Architecture: User Flows, Site Maps, Navigation Design

Interaction Design: Wireframing, Prototyping, Interaction States

UI Design: Layout, Typography, Color Theory, Visual Hierarchy, Responsive Design

Design Systems: Components, Variants, Reusable Patterns, Design Tokens

Usability: Usability Testing, Task Analysis, User Feedback, Iterative Design

Accessibility: WCAG Principles, Keyboard Navigation, Color Contrast, Accessible Forms

Documentation: Design Specifications, UX Case Studies, Handoff Documentation

Professional Experience

Full Stack Developer Intern — Elcodamics (Onsite) *Aug 2025 – Nov 2025*

- Built React.js front-end interfaces from requirements, working closely with senior developers and QA in Agile sprints.
- Implemented form input validation and structured error handling to improve interface reliability and user experience.
- Developed responsive, mobile-friendly web interfaces using React.js, HTML5, and CSS3 to ensure consistent layouts across screen sizes.
- Translated requirements into reusable React.js components with clear visual hierarchy and consistent styling.
- Collaborated with developers and QA to identify and fix UI defects and usability issues found during testing and review.
- Participated in sprint planning and review sessions, incorporating feedback to refine interfaces iteratively.

Projects

AccessAble — Accessibility-First Digital Experience Platform *Figma · FigJam · axe DevTools · WCAG Guidance*

- Designed an accessibility-focused interface to help teams identify and prioritize usability barriers.
- Created user flows, wireframes, and interactive prototypes for accessibility issue management.
- Designed reusable interface components with clear focus states, accessible form patterns, and responsive layouts.
- Developed before-and-after interface comparisons to demonstrate proposed accessibility improvements.
- Conducted usability testing to identify navigation, form-validation, and information-clarity issues.
- Documented design decisions, accessibility considerations, and findings from usability evaluations.

MediFlow — Patient Appointment Experience Redesign *Figma · FigJam · Interactive Prototyping*

- Designed a patient-centered appointment booking experience for discovering healthcare providers and managing visits.
- Developed user journeys, information architecture, and task flows for appointment discovery and booking.
- Created responsive wireframes and high-fidelity prototypes for desktop and mobile experiences.
- Designed clear form-validation, error-prevention, confirmation, and rescheduling interactions.
- Conducted usability tests to identify friction points in appointment booking.
- Iterated on the interface based on user feedback and documented the resulting design decisions.

Certifications & Achievements

- Research Paper Published: *"Hostel Management System"* – International Journal of Research Publication and Reviews (IJRPR), Vol. 6, Issue 5, 2025.
- freeCodeCamp: JavaScript Algorithms & DSA, Responsive Web Design | IBM: Web Dev Fundamentals | Python 101 for Data Science.
